- Privacy and Cybersecurity
- Real Estate
- Trusts and Estates
- Unfair Business Practices

We speak the language of Government Contracts. Our goal is to translate the complex requirements of federal regulations and contracts into practical advice contractors can understand. We are nationally recognized for our bid protest practice, having represented Fortune 50, mid-tier, and small business government contractors in over 100 protests at federal agencies, the Government Accountability Office, and the U.S. Court of Federal Claims.

We are fierce advocates for our clients in negotiations and other disputes with the Government or other contractors. Nearly half of our clients are small businesses, so we are well-versed in the regulations applicable to the Government's preferential contracting programs such as SBA's Small Business, 8(a), WOSB, SDVOSB, HUBZone programs and VA's SDVOSB/VOSB program.

Our clients are located in both the continental United States and abroad and represent varied industries such as financial services, information technology, international aid, research and development, aerospace, construction, and health care.

Areas in which we assist our Government Contract clients include:

Bid Protests

- Agency-level Protests
- Government Accountability Office Protests
- Protests at the U.S. Court of Federal Claims
- Appeals to the Federal Circuit
- Small Business Size and Status Protests at the Small Business Administration
